

## Osteoporosis: risk assessment, treatment and prevention of fragility fractures Committee meeting 22

**Date:** 05 11 2025

**Location:** Virtual (Zoom)

**Minutes:** Final

|                             |                         |
|-----------------------------|-------------------------|
| Alison Ahmed                | Present for items 1 - 6 |
| Elaine Dennison             | Present for items 1 - 6 |
| Ian MacLeod                 | Present for items 1 - 6 |
| Irene Baker                 | Present for items 1 - 6 |
| Karen Knapp                 | Present for items 1 - 6 |
| Karen Whitehead             | Present for items 1 - 6 |
| Kay Morgan                  | Present for items 1 - 6 |
| Margaret Lally (Chair)      | Present for items 1 - 6 |
| Nam Hunger-Nguyen           | Present for items 1 - 6 |
| Nicholas Pipkin             | Present for items 1 - 6 |
| Nicola Peel (Topic Advisor) | Present for items 1 - 6 |
| Paul Hamilton               | Present for items 1 - 6 |
| Rachel Muir                 | Present for items 1 - 6 |
| Rajesh Varma                | Present for items 1 - 6 |
| Stuart Ralston              | Present for items 1 - 6 |

| <b>NICE Team</b> |                          |                         |
|------------------|--------------------------|-------------------------|
| Kate Kelley      | Topic Lead               | Present for items 1 - 6 |
| Clare Jones      | Senior Technical Analyst | Present for items 1 - 6 |
| Linyun Fou       | Technical Analyst        | Present for items 1 - 6 |
| Kate Lovibond    | Senior Health Economist  | Present for items 1 - 6 |
| Muksitur Rahman  | Health Economist         | Present for items 1 - 6 |
| Rebecca Boucher  | Content Designer         | Present for items 1 - 6 |
| Tamara Diaz      | Project manager          | Present for items 1 - 6 |

| <b>Apologies:</b> |                  |
|-------------------|------------------|
| Sherwin Criseno   | Committee member |
| Carlos Sharpin    | Topic Lead       |

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>1. Welcome and objectives for the meeting</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <p>The Chair welcomed the Committee members and attendees to the 22<sup>nd</sup> Osteoporosis guideline committee meeting.</p> <p>The Chair informed the Committee that apologies had been received. These are noted above.</p> <p>The Chair outlined the objectives of day two of this meeting: to finalize recommendations and prepare for public consultation in the new year.</p>                                                                                                                                                                                                                                                                         |
| <b>2. Confirmation of matter under discussion, and declarations of interest</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <p>The Chair confirmed that, for the purpose of managing conflicts of interest, the matter under discussion is stated above in item 1. The Chair asked everyone to verbally declare any interests that had arisen since the last meeting. There were no new declarations.</p> <p>The Chair, and a senior member of the Developer's team noted that previous declarations would not require exclusions from this meeting.</p>                                                                                                                                                                                                                                  |
| <b>3. Guideline discussions: continued</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| <p>The committee resumed reviewing the treatment criteria section. Discussion centred on clarifying terminology such as fracture risk score, independent risk factors, and BMD vs BMD score.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>4. Review of recommendations: continued</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <p>The committee continued detailed review of the draft treatment-criteria recommendations, focusing on clarifying terminology, ensuring internal consistency, and refining thresholds for clinical decision-making. Members revisited the role of fracture-risk scores, the handling of independent risk factors not fully captured by tools like FRAX, and the need for consistent use of BMD, including when to apply T-scores versus Z-scores. They examined specific population groups—such as women ≥65 with osteopenia, people on high-dose glucocorticoids, those with medication-related bone loss, and younger adults with fragility fractures.</p> |
| <b>5. Next steps</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <p>The meeting concluded with a review of next steps, including timelines for document review, consultation, and the importance of maintaining confidentiality. Members were thanked for their contributions and reminded of the upcoming deadlines.</p>                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>6. AOB</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

There being no further business the meeting ended at 1:00 p.m.

**Date of next meeting:** Next meeting dates to be confirmed

Key dates: Consultation: 13<sup>th</sup> January to 23<sup>rd</sup>  
February 2025.
